At a glance

IBM® SPSS® Predictive Analytics Enterprise offers the following features:

- Simplicity without sacrifice
- Open and integrated design
- Flexible deployment
- Better decision making at the point of impact

Overview

SPSS Predictive Analytics Enterprise V2.0 is one of the most complete analysis and deployment technology options for adopting predictive analytics. SPSS Predictive Analytics Enterprise brings together IBM SPSS market-leading, SPSS analytical products that span ad-hoc statistical analysis, predictive modeling, text analytics, entity analytics, and the deployment framework for integrating predictive intelligence into operational decisions. SPSS Predictive Analytics Enterprise brings together the capabilities of:

- SPSS Statistics Standard, for in-depth statistical analysis and reporting
- SPSS Modeler Gold, for predictive modeling and the ability to optimize how rules and models drive operational decisions
- IBM Analytical Catalyst, for the ability to find patterns and relationships within Big Data through a browser
- SPSS Collaboration and Deployment Real Time Scoring Service, to provide predictive scores in real-time for use by people and systems
- IBM Analytical Server, for the ability to access big data, such as Hadoop, to broaden analytical possibilities

Key prerequisites

Hardware

- Client
- Server
- UNIX™ hardware

Software

Client-side

- Windows™
- Mac (statistics only)
- Linux™ (statistics only)

Server-side

- Windows Server
- AIX®
- Linux
- Solaris
- Hadoop (analytic server only)
- Application server (decision management only)

Planned availability date

- June 13, 2014: Electronic general availability
- July 7, 2014: Planned general availability

Description

SPSS Predictive Analytics Enterprise provides an easy-to-use, visual approach to predictive and statistical analytics with the depth and breadth of data access, manipulation, and algorithms that meet the needs of a data scientist. It allows organizations to influence virtually any data source (including Hadoop for big data), any data format (structured and unstructured), and use predictive outcomes and business rules to inform multiple operational intelligence.

Predictive Analytics Enterprise allows organizations to use predictive intelligence at scale to support a line-of-business function with decisions optimized that are based on rules and predictions in real time, at the point of impact. This product can scale to accommodate single, or multiple, line-of-business functions easily with flexible deployment and configuration options that can accommodate multiple business use cases.

Program number

Program number	VRM	Program name
5725-M48	2.0	IBM SPSS Predictive Analytics Enterprise Client
5725-M49	2.0	IBM SPSS Predictive Analytics Enterprise Server

Offering Information

Product information is available via the Offering Information website

<http://www.ibm.com/common/ssi>

Also, visit the Passport Advantage® website

<http://www.ibm.com/software/passportadvantage>

Publications

No publications are shipped with this program.

Technical information

Specified operating environment

Hardware requirements

Client

- Intel™ or AMD x86 processor running at 1 GHz or higher
- 4 GB of RAM or more
- 20 GB of available hard-disk space. XGA (1024x768) or a higher-resolution monitor
- For connecting with SPSS Statistics Server and SPSS Modeler Server, a network adapter running the TCP/IP network protocol

Server

- 8 GB RAM
- 40 GB free disk space

UNIX hardware

- PowerPC® processor, 233 MHz or faster and IBM System p® for IBM AIX;
- UltraSPARC II (or better) for Solaris;
- x64 (AMD 64 and EM64T) processor family or IBM System z® for 64-bit Linux

Software requirements

Client-side

- Windows : XP, Vista, 7, and 8.x
- Mac (statistics only): Mac OS X 10.7, 10.8, and 10.9
- Linux (statistics only): Debian 5, Red Hat Enterprise Linux (RHEL) Client 6

Server-side

- Windows Server 2008, 2006 R2, and 2012
- AIX 6.1 and 7.1
- Linux : Red Hat Enterprise Linux 5 (x86 and System z); Red Hat Enterprise Linux 6 (x86 and System z); SUSE Enterprise Server Linux 10 (x86 and System z), and SUSE Enterprise Server Linux 11 (x86 and System z)
- Solaris 10, 11
- Hadoop (for Analytic Server only): Apache Hadoop 1.0; Cloudera CDH 3; Infosphere Big Insights
- Application Server (for Decision Management): JBOSS EAP 6; Oracle WebLogic Server 12cR1; Oracle/BEA WebLogic Server 10.3; WebSphere® Application Server 7, 8, and 8.5; WebSphere Application Server Network Deployment 7 and 8

Browsers

- Internet Explorer 8, 9, and 10
- FireFox 17 and 24

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a readme file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

Planning information

Packaging

SPSS Predictive Analytics Enterprise V2.0 is distributed with:

- International Program License Agreement (Z125-3301)
- License Information documents:
 - L-JBRN-9H5N83 (Client)
 - L-GLBC-9H3P2C (Server)
- CD-ROM
- Publications (refer to the [Publications](#) section)

Security, auditability, and control

SPSS Predictive Analytics Enterprise V2.0 uses the security and auditability features of the operating system software. The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

Global Technology Services®

Contact your IBM representative for the list of selected services available in your country, either as standard or customized offerings for the efficient installation, implementation, or integration of this product.

Ordering information for Passport Advantage

Passport Advantage allows you to have a common anniversary date Software Subscription and Support (SW S&S) renewals, which can simplify management and budgeting for eligible new versions and releases (and related technical support) for your covered products. The anniversary date, established at the start of your Passport Advantage Agreement, will remain unchanged while your Passport Advantage Agreement remains in effect. New software purchases will initially include twelve full months of SW S&S. SW S&S in the second year (the first year of renewal) can be prorated to be coterminous with your common anniversary date. Thereafter,

all SW S&S will renew at the the common anniversary date for twelve full months of SW S&S.

Refer to the IBM International Passport Advantage Agreement and to the *IBM Software Support Handbook* for specific terms relating to, and a more complete description of, technical support provided through SW S&S.

To order for Passport Advantage, specify the desired part number and quantity.

Description	Part number
IBM SPSS Predictive Analytics Enterprise Client Concurrent User License + SW Subscription & Support 12 Months	D15C7LL

To order a media pack for Passport Advantage, specify the part number and the desired quantity from the following table:

Description	Part number
IBM SPSS Predictive Analytics Enterprise Client 2.0 Multiplatform Multilingual Media Pack.	B9033ML
IBM SPSS Predictive Analytics Enterprise Server 2.0 Multiplatform Multilingual Media Pack	B9034ML

IBM SPSS Predictive Analytics Enterprise V2.0 is also available, via Web download, from Passport Advantage.

Charge metric

Program name	Part number or PID number	Charge metric
IBM SPSS Predictive Analytics Enterprise Client V2.0	5725-M48	Concurrent User Authorized User
IBM SPSS Predictive Analytics Enterprise Server V2.0	5725-M49	Processor Value Unit (PVU)

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

This product is only available via Passport Advantage.

Licensing

IBM International Program License Agreement including the License Information document and Proof of Entitlement (PoE) govern your use of the program. PoEs are required for all authorized use. Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

These programs are licensed under the IBM Program License Agreement (IPLA) and the associated Agreement for Acquisition of Software Maintenance, which provide for support with ongoing access to releases and versions of the program. IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with the initial license acquisition of each program acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available. These programs have a one-time license charge for use of the program and an annual renewable charge for the enhanced support that includes telephone assistance (voice support for defects during normal business hours), as well as access to updates, releases, and versions of the program as long as support is in effect.

License Information number

L-JBRN-9H5N83 - Client
L-GLBC-9H3P2C - Server

The program's License Information will be available for review on the IBM Software License Agreement website

<http://www.ibm.com/software/sla/sladb.nsf>

Limited warranty applies

Yes

Limited warranty

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. For further information, consult the *IBM Software Support Handbook* found at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program technical support

Technical support of a program product version or release will be available for a minimum of five years from the general availability date, as long as your Software Subscription and Support (also referred to as Software Maintenance) is in effect. This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Subscription and Support (Software Maintenance) also provides you with access to updates (modifications or fixes), releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

Money-back guarantee

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For clarification, note that (1) for programs acquired under the IBM International Passport Advantage offering, this term applies only to your first acquisition of the program and (2) for programs acquired under any of IBM's On/Off Capacity on Demand (On/Off CoD) software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

Volume orders (IVO)

No

Passport Advantage applies

Yes, and through the Passport Advantage website at

<http://www.ibm.com/software/passportadvantage>

Software Subscription and Support applies

Yes. Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express®. Product upgrades and Technical Support are provided by the Software Subscription and Support offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support with each program license acquired. The initial period of Software Subscription and Support can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance via telephone and, if available,

electronic access, only to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, consult your *IBM Software Support Handbook* at

<http://www.ibm.com/support/handbook>

Software Subscription and Support does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage website at

<http://www.ibm.com/software/passportadvantage>

System i® Software Maintenance applies

No

Variable charges apply

No

Educational allowance available

Education allowance does not apply.

Special education prices are available for qualified customers through Passport Advantage.

Statement of good security practices

IT system security involves protecting systems and information through prevention, detection, and response to improper access from within and outside your enterprise. Improper access can result in information being altered, destroyed, or misappropriated or can result in misuse of your systems to attack others. Without a comprehensive approach to security, no IT system or product should be considered completely secure and no single product or security measure can be completely effective in preventing improper access. IBM systems and products are designed to be part of a comprehensive security approach, which will necessarily involve additional operational procedures, and may require other systems, products, or services to be most effective. IBM does not warrant that systems and products are immune from the malicious or illegal conduct of any party.

Prices

For all charges, contact your IBM representative.

Announcement countries

All European, Middle Eastern, and African countries except Iran, Sudan (not the Republic of South Sudan), and Syria.

Trademarks

IBM, SPSS, AIX, Passport Advantage, PowerPC, System p, System z, WebSphere, Global Technology Services, zEnterprise, BladeCenter, Express and System i are

registered trademarks of IBM Corporation in the United States, other countries, or both.
